CHANGE VS 9M 2025

Who pulled back most

— Hussain Nasser

THREE THINGS I'D TAKE FROM IT

Read past the total

01 Two rounds worth $563M carry the headline. The rest is back at 9M 2024 levels.

02 International investors pulled back the most, so more depends on how steadily local funds deploy.

03 Series A held up better (-17%). Companies with traction are still raising.

WHAT I'LL WATCH

Next quarter I'll watch non-mega funding before the headline total.
