WHAT'S BEHIND IT

Why the quarter and the year differ

01 Development fees are booked at project milestones, and Acwa says milestones slipped this year.

02 Funding costs are higher, and newly operational plants add financing costs.

03 Earnings will depend on when the 29 projects switch on, and at what funding cost.

WHAT I'LL WATCH

Q4 milestones and full-year operating income.

Quarter or year to date: which do you read first?
